# ADS 75.SI

doors - vertical section

75

1 KONSTRUCTION
Aluminium profile frame thickness 75mm with straight lines.

2 THERMAL FOAM
In the middle of the frame profiles is thermal foam, which improves the thermal characteristics of the profile.

3 ALUMINIUM FILLINGS
with the core made of hard polyurethane foam has very good thermal characteristics.

HARDWARE
Quality three-dimensional adjustable hinges.
3 or 5-point locking of the leaf.
Various options for opening: outside opening, a fingerprint system,

4 INSULATING TRESHOLD

**5** THREE SEALS ensure optimal tightness.

6 GLAZING
You can choose from a variety of thermal and acoustic insulated and safety glass.
A wide selection of ornaments and vitrages according to your wishes.
Finishing the glass with various foils, glass accessories, sandblasting etc.
ALUMINIUM SURFACES
A powder-coated aluminum clads are environmentally friendly and provides excellent quality and durability of coloured surfaces. A wide range of colors from the RAL color chart, imitation wood decors and colors with a metallic appearance.

OKFF

coating of aluminum on both sides overlap the door frame

coating of aluminum on outer side overlap the door frame
visible door frame - inside and outside

Profile **ADS 75.SI**

$U_D = 0,81$ W/m²K (coating of aluminum on both sides overlap the door frame - without cutouts for the glas)

$U_D = 1,2$ W/m²K (coating of aluminum on outer side overlap the door frame - without cutouts for the glas)
